

## DCDOGVOTER.COM

We, the undersigned, as concerned tax-paying DC residents of the greater Ward 4 area—dog owners and non-dog owners—believe it is important to have neighborhood dog parks to socialize and exercise dogs off-leash.

Specifically, we are calling for the right to use the vacant, fenced park area at the corner of Allison St. and Arkansas Ave. NW (Upshur Recreation Center area), until neighborhood dog parks have been established.

We do not believe that dogs are more important than people, but we do believe that dog owners are equal to other park patrons and should be treated equitably.

We commit to be responsible park patrons. We will:

- clean up after our dogs and each other;
- maintain voice control of our dogs and keep disturbances to a minimum;
- assist with the maintenance of the park; and
- treat our community members with respect and consideration.

Sincerely,
